OBJECTIVE

B. Com (Computer Applications) graduate with practical experience in Power BI, SQL, Excel, and Python. Skilled in creating real-time dashboards and analytics solutions to support data-driven decisions. Strong problem-solver with a keen eye for detail and a passion for learning and adapting to new technologies.

EDUCATION

Indian Institute of Management and Commerce, Hyderabad
Bachelor of Commerce (Computer Applications)

June 2022 – June 2025
CGPA: 8.1

TECHNICAL SKILLS

HTML, CSS, Power BI (DAX functions, KPIs, Charts, Slicers), MS Excel (Pivot Tables, Charts, VLOOKUP), SQL (Joins, Aggregations, Queries), Python, Data Analysis: Data Cleaning, Trend Analysis, Dashboard Design, Business Intelligence, Tableau, Data-Driven, Decision Making, Analytical Thinking & Problem-Solving.

INTERNSHIP

DATA ANALYST INTERN– CESNO (Remote)

June 2025 – present

- Cleaned and processed large datasets using Excel.
- Created interactive dashboards and visualizations for decision-making.
- Applied statistical analysis to identify key trends and KPIs.

BUSINESS DEVELOPMENT INTERN – YOUNITY

Aug 2023 – Sep 2023

As a Business Development Intern at Younity, I worked closely with data and client-facing teams, gaining practical exposure in analytics and documentation.

PROJECTS

INTERNET SPEED TESTING USING PYTHON | [Link](#)

- Built a Python script to test real-time internet speed using the speed test module.
- Measured and displayed download and upload speeds with accurate Mbps conversion.
- Implemented modular functions for unit conversion and result formatting.

POWER BI WEATHER DASHBOARD | [Link](#)

- Created a real-time weather dashboard using Weather APIs for live data.
- Designed visuals for temperature, humidity, and rainfall across cities.
- Used filters, slicers, and auto-refresh for reports.

FINANCIAL ANALYSIS DASHBOARD | [Link](#)

- Designed a financial dashboard to track quarterly expenses and profit trends across departments.
- Used PivotTables, slicers, and conditional formatting for data segmentation and visualization.
- Delivered dynamic summaries to support informed financial decision-making.

EXCEL REVENUE ANALYSIS | [Link](#)

- Created an interactive revenue dashboard using PivotTables, dynamic charts, and Excel formulas.
- Summarized monthly revenue patterns using VLOOKUP and SUMIFS for trend analysis
- Enabled business teams to track KPIs and compare performance across months.

CERTIFICATES AND ACHIEVEMENTS

Advanced Excel – Udemy | Power BI – Udemy | MS Excel – JP Morgan Chase & Co
Best Decision Maker, Excellent Communicator – Younity

INTERESTS

Cricket, Stock Market Analysis, Problem Solving.
